ABOUT US

Hind Freight Services Private Limited (HFS) is a Samsara Group Company.

Samsara Group commenced operations in India in 1996.

With our core competencies fully focused on the business of shipping, we enjoy the enviable distinction of being a trendsetter in the industry.

We are also recognized as one of the youngest companies to establish a nationwide network of offices in a very short time. With a service portfolio that encompasses shipping, rail, CFSs, ICDs and terminals and the entire logistics, we have created value driven, customer centric solutions.

With a network of strategic self owned offices, extensive market know-how and a team of informed professionals, We offer world class end to end supply chain solutions.

Hind Freight Services Private Limited is an independent company with tremendous support of liner companies in Containers, Breakbulk, Project Cargo, RO/RO services with the parent Group.

Hind Freight Services Private Limited, with one of the largest logistics network of 65+ offices across India, offers total logistics solutions, combined with the local knowledge and expertise.

Our strong team of dedicated professionals pride themselves on working closely with our customers to understand their business requirements and accordingly, offer them the best and most **cost effective logistics solutions.**

CUSTOMS CLEARANCE SERVICES

OUR GLOBAL NETWORK PROVIDES EXPORT AND IMPORT CUSTOM CLEARANCE INCLUDING BORDER CONTROL FORMALITIES

HFS offers a complete menu of Customs Brokerage Services including:

- Tariff classification and duty file maintenance
- Import and export clearance
- Duty drawback application
- Consulting services and advice
- Pre-shipment authorisation and pre-clearance
- Export document preparation
- Electronic connection to customs.

Our diverse knowledge of customs clearance requirements avoids costly and inconvenient delays.

HFS's end-to-end capability means we can arrange the transshipment or local delivery of cleared merchandise through our integrated network.

We assist our clients in the event of a Customs audit.

The quality of information contained in our database allows for cross-referencing of shipments, customs entry numbers, orders and products.

The functionality will be a major time saver when carrying out a customs audit or completing duty drawbacks.
